SUMMARY

Motivated Computer Science undergraduate with hands-on experience building full-stack web applications using the MERN stack, REST APIs, and AI-integrated tools. Proficient in Java and Python with a strong foundation in Data Structures and Algorithms. Passionate about developing scalable, user-focused software solutions and continuously expanding expertise in modern backend and frontend technologies.

EDUCATION

Geethanjali College of Engineering and Technology, Hyderabad *Oct 2022 – May 2026*

Bachelor of Technology in Computer Science and Engineering GPA: 7.6

MJPTBC Welfare Junior College, Nagarjuna Sagar *Jun 2020 – Mar 2022*

Intermediate (MPC) Percentage: 95%

TECHNICAL SKILLS

- **Programming Languages:** C, Java, Python
- **Frontend:** JavaScript, React.js
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, VS Code, Vercel
- **Concepts:** Data Structures and Algorithms, OOP, DBMS

PROJECTS

AI-Powered Vehicle Damage Detection & Repair Cost Estimator

- Built a computer vision system using YOLOv8 to detect damaged vehicle parts (bonnet, bumper, door, fender, windshield) with high accuracy.
- Implemented a repair cost estimation module predicting cost ranges based on the type and severity of detected damage.
- Deployed as a Flask web application with real-time image upload, visual damage highlighting, and MySQL database integration.

Restaurant Reservation System (MERN Stack)

- Developed a full-stack reservation system using MongoDB, Express, React, and Node.js.
- Implemented JWT-based authentication and role-based Admin Dashboard.
- Designed RESTful APIs with CRUD operations and real-time reservation validation.
- Built a responsive UI with secure backend integration and MongoDB database management.

CERTIFICATIONS

- Deloitte Data Analytics Virtual Experience Program (Forage) – Jul 2025
- IBM Python for Data Science Certification – Jun 2025
- Oracle Certified – Java – Sep 2024
